MUHAMMAD SHABAN

Experienced Frontend Developer with expertise in JavaScript, React, and WordPress, specializing in dynamic and responsive UIs. Also skilled in backend development, ensuring seamless full-stack solutions. Previously worked at Devtrain.co, contributing to high-quality digital experiences. Continuously learning and adapting to new technologies.

Work Experience

Front-End Development (Full-Stack)

- Strong expertise in React.js, JavaScript, and modern UI frameworks (Tailwind CSS, Bootstrap, Material UI).
- Skilled in developing responsive, interactive, and optimized web applications with a focus on performance and user experience.
- Proficient in HTML, CSS, and JavaScript , ensuring pixel-perfect designs and smooth animations.
- Basic knowledge of Back-End development, including Node.js, Express.js, and database handling (MongoDB, Postman) for API integration and minor server-side tasks.
- Familiar with state management using Context API, and optimizing front-end workflows.

Wordpress Development

- Experienced in developing and customizing WordPress websites, including static sites and dynamic web applications.
- Proficient in creating and modifying WordPress themes and plugins to meet client requirements.
- Skilled in optimizing website performance, security, and SEO best practices.
- Expertise in WooCommerce for e-commerce solutions, including payment gateway integration and custom functionality.
- Knowledgeable in cloud integration and hosting management for WordPress-based websites.
- Successfully built and deployed multiple WordPress websites for various industries.
